Detroit ends 2023 with fewest homicides in 57 years, double-digit drops in shootings and carjackings thanks to DPD, federal, county, state, and community partnerships

JAN
03

POLICE DEPARTMENT

2024

- Preliminary numbers show Detroit ended 2023 with 252 criminal homicides, the fewest in any year since 1966.
- Non-fatal shootings down nearly 16%, carjackings plummet by 33 %
- Overall violent crime dropped 1%, larcenies and assaults increased

The city of Detroit finished 2023 with 252 homicides, the fewest recorded since 1966. The city also saw a 16% reduction in nonfatal shootings and a 34% reduction in carjackings a coalition of local, state and federal partners announced today.

"In 2023, many cities in the U.S. saw a reduction in crime as the Covid-era violence has begun to abate," Detroit Mayor Mike Duggan. "What's truly remarkable is that Detroit's homicides dropped below pre-covid levels. I want to thank the men and women of the Detroit Police Department and all of the other partners in the law enforcement system that made this possible." 252 homicides in 2023 were below the 261 homicides recorded in 2018 and are the lowest since Detroit experienced 232 homicides in 1966.

"We laid out a clear strategy at the start of 2023 to drive down gun crimes in Detroit, focusing on homicides, non-fatal shootings, and carjackings," said Chief James White. "When federal, state, county, city, judicial, and community partners all work together, we showed in 2023 that Detroit can become a much safer community." While official

2023 numbers may change slightly as some cases conclude ongoing investigations, preliminary data show that Detroit recorded the following numbers for those crimes:

Crime category	2022	2023	% change +/-
Homicides	309	252	-18.4%
Nonfatal Shootings	955	804	-15.8%
Carjackings	251	167	-33.5%

The city's overall crime showed a reduction in all major categories except larcenies, which rose by 11%:

NON-FATAL SHOOTING**	955	804	-15.8%	
CARJACKING	251	167	-33.5%	

The result came from a coordinated effort of government and community agencies:

Detroit Police Department

The Detroit Police contract in November 2022 gave officers a \$10,000 raise, which allowed DPD to place 200 additional officers on the street in 2023. The additional police resources were used in a targeted strategy to reduce gun violence in 2023 through the following measures:

Neighborhood Violence Prevention. Beginning in the spring, DPD identified and targeted likely locations of crowd gathering and potential neighborhood violence, including parks, block parties, community events, and potential hot spots. DPD actively monitored and deployed officers at all of these locations, strategically deployed EVOLV weapons detectors, and adopted a strategy of preventing gun violence, instead of waiting for a 911 call reporting a shooting.

Crackdown on neighborhood drag racing and drifting. The crowds forming at neighborhood drag racing and drifting events have historically been a source of fights and gun violence. DPD used active crime intelligence a rapidly deployed drag racing team to break up events before they could get started.

ShotSpotter Expanded to 39 square miles of the city, giving DPD immediate notice of gunfire and allowing a rapid response to cases that otherwise may have gone unreported.

Downtown Summer Crowd Surge plan. DPD's downtown 12 point "Summer Surge" plan implemented in April, virtually eliminated downtown gun violence for the rest of 2023. Hundreds of thousands of visitors attending events like the Grand Prix, Jazz Fest, Taylor Swift concert and others enjoyed a safe family atmosphere. Detroit received extensive national attention throughout 2023 for the success of these events.

Federal Partnership

US Attorney Dawn Ison has led the One Detroit summer crime reduction strategy in the 8th and 9th precincts, which had been experiencing the highest rate of gun crimes. One Detroit combined increased federal prosecution for gun crimes and gang activities, combined with active prevention outreach efforts, including highly attended community "Peacenics."

In 2023, the program resulted in major reduction in violence in the scout car areas targeted by One Detroit:

- Carjackings are down 63%
- Homicides are down 17%
- Non-fatal shootings are down 18%
- 22 individuals charged federally

ATF and DEA coordinated efforts with US Attorney Ison to dramatically increase enforcement of gun crimes:

Figures are preliminary and subject to further analysis and revision.

As of January 2013, complaints occurring within the jurisdiction of the Department of Correction have been disaggregated from the borough and precinct crime totals and are displayed separately on the Department of Correction CompStat page.

Unless otherwise noted, Crime statistics reflect New York State Penal Law ("NYSPL") definitions and differ from the crime categories used by the FBI Uniform Crime Reporting Program. All Crime statistics are translated to Uniform Crime Reporting categories for submission to the UCR Program.

* Uniform Crime Reporting ("UCR") Rape consists of all crimes defined in the FBI UCR definition of rape.
